^A randomized clinical study of 140 healthy overweight people compared the use of Slimvance® in conjunction with an 1800 calorie diet and walking plan to a placebo with the same diet and walking plan. Those on Slimvance® lost almost 10 more pounds (-11.81 pounds vs. -1.91 pounds), lost over an inch more around the hips (-1.76 inches vs. -0.48 inches) and lost over an inch more around the waist (-2.12 inches vs. -0.68 inches) than the placebo group after 16 weeks.

◆A randomized, double-blind, placebo-controlled trial of 79 healthy men and women showed a significant reduction in salivary cortisol, a key marker of stress in those who took Slimaluma® compared to those who took a placebo.

◇Use in conjunction with the diet and exercise plan available at www.slimvance.com/plan.
